Thanks Aimee. Although that now triggered another question for me. Are you available to call me at 415-977-5727? Promise it will be a quick question.
Thanks

Travis,

The Federal Energy Regulatory Commission (FERC) is the lead agency for this project. As such, we cannot issue the final permit until FERC has issued a final Environmental Impact Statement (EIS) determination. I don't know what FERC's timeline is at this time. I received an email from FERC in January that stated the draft EIS should come out in March, but I do not have an update on its status.

Thanks,

Aimee

Subject: Timing of Freeport LNG

Hi Aimee,

Sierra Club submitted comments to the Region on January 6, 2014 regarding the Freeport LNG project. Do you have any estimate (even a ballpark) for when we would expect to see a final permit?

Thanks so much.

Travis
